IMED BOUZIDI

Software Engineer

Bardo, Tunisia | Phone: +216 29 071 349 | bouzidy.imed@gmail.com
LinkedIn | GitHub: imedbennington | GitHub: ImedBouzidi | Portfolio

SKILLS

Programming: Java, C#, Python, PHP, JavaScript, TypeScript, Algorithms & Data Structures, OOP
Frameworks: Spring Boot, Spring Security, Laravel, RESTful APIs, ASP.Net, Angular, React.js, Flask, Flutter, Microservices
DevOps: Docker, Kubernetes, Jenkins, CI/CD, Git, Jira, API Gateway
Tools: SQL & NoSQL (PostgreSQL, MongoDB, Redis), Apache Kafka, Eureka, Prometheus, Grafana, Keycloak, n8n, OCR

INTERNSHIPS

Software Engineering Intern — **INSY2S** | Lille, France (Remote) | Feb 2026 – Jun 2026

Unified Request Management Platform (Gomrah) — Full-Stack Developer & Architect

- Designed and built a scalable **microservices** platform for omnichannel request intake (**Email, WhatsApp, Web**) with intelligent automation.
- Engineered a multi-engine **OCR pipeline (Tesseract + EasyOCR)** supporting French, English, and Arabic documents, achieving production-ready accuracy through image preprocessing and automatic language detection.
- Fine-tuned a **BERT** classification model on 5,000+ historical tickets to automate request routing with high precision.
- Orchestrated business workflows using **n8n automation**, reducing end-to-end processing from minutes to seconds for automated flows.
- Deployed a local **LLM (Gemma 2B via Ollama)** for multilingual AI-generated reply drafts with human-in-the-loop validation.
- Implemented security (**Keycloak**), service discovery (**Eureka**), message broker (**Kafka**), caching (**Redis**), **CI/CD (Jenkins, Docker)**, and monitoring (**Prometheus, Grafana**) across 12 containerized microservices.

Software Development Intern — **Selmi IT Innovation** | Zaghouan | Jul 2025 – Sep 2025

- Developed concept for Ala Dhemtk platform, building backend with **Spring Boot** and frontend with **Angular 19**.
- Integrated frontend/backend, used **GitHub** for collaboration, and contributed to **deployment and testing**.

Software Intern — **M-IT Organization** | Tunis | Jul 2024 – Aug 2024

- Designed and developed both the frontend and backend of a **Learning Management System (LMS)** using **Laravel 11**.

PROFESSIONAL EXPERIENCE

Full Stack SpringBoot & Angular Developer — **UTC (United Training and Consulting)** | Feb 2025 – Feb 2026

- Developed and maintained full-stack web applications using **Spring Boot** for the backend and **Angular** for the frontend.
- Collaborated with cross-functional teams to design, implement, and deliver **scalable software solutions**.

Freelance Software Developer |

- Built and deployed a **desktop application** for a coffee shop; gathered requirements, wrote manuals, and provided ongoing support.

Founder — **Agricultural Project** | Kasserine | 2020 – 2023

EDUCATION

2023 – 2026 Engineering Degree, Computer Science — **Iteam University**, Tunis (Graduated 2026)

2011 – 2014 Applied Degree in Computer Science — **ISET**, Kasserine
